Heidelberg Materials

Happy Holidays

Wishing you a wonderful holiday season and a happy new year!

Scott Project Update

December 2025

scottpropertyproject.com

What's new?

December 2025: The majority of planned baseline assessment field work is complete. Recent work includes completing a drilling program to characterize subsurface conditions and install groundwater monitoring wells, refining operational plans, and integrating sustainability commitments.

What's next?

2026: In the coming months, we'll continue preparing detailed application materials and engaging with stakeholders. This includes finalizing technical studies, hosting community information sessions, and sharing updates on the project.

Connect with the Project Team

We welcome opportunities to connect directly. If you have questions, feedback, or would like to learn more about the Scott Project, we are happy to set up a one-on-one conversation or correspond by email. These discussions are a chance to share updates, hear your perspective, and discuss how the project may affect or benefit the surrounding area.

Please do not hesitate to reach out to Dale @ 780-423-6307, or email him at dale.soetaert@heidelbergmaterials.com
